ACCESSORIES FOR GYPSUM BOARDS

MICROFIX
Ref. 1033 - Micromesh fixing tool (without nails, screws or staples)

FIBATAPE APPLICATOR
Ref. 4846 - Universal unroller for Fibatape rolls

STRAITFLEX MUD-PRO 2
Ref. 1038 - Plastering buckets kit for STRAITFLEX / PAPER CORNER profiles

A. STRAITFLEX ROLLER 300 MID FLEX
Ref. 1039
B. STRAITFLEX EXTENSION POLE
Ref. 1040

MDB SILIPRO
Ref. 1060 - Transparent 1-component acetic silicone

MDB ACRYLPRO
Ref. 1061 - White 1-component acrylic sealant

MDB FIXPRO
Ref. 1062 - White sealant glue

MDB FOAMGLUEPRO
Ref. 1063 - 1-component poly-urethane prepolymer foam

STRAITFLEX FLEX FOLDER
Ref. 1047 - Tool to make the folding of all flexible composite STRAITFLEX profiles easier

UNIVERSAL CUTTING PINCH FOR METAL PROFILES
Ref. 1200 - Yellow
Ref. 1201 - Green – for right cuts
Ref. 1202 - Red – for left cuts

"MULTI COUP" PINCH
Ref. 1205 - Miter pinch for PVC profiles

GRABBER SCREWS
Quick motion screws with « Scavenger » double head
Available in small packet, cartridges or tubs

BUILDING CHEMISTRY

GUARANTEE: We guarantee the impeccable quality of the raw materials used in the manufacture of our sections/extrusions for plaster (275 g galvanised Sendzimir, AZ 150 Aluzinc, aluminium, AISI 304 stainless steel and PVC). However, we are unable to guarantee resistance against corrosion for our sections. In fact, the chemical and physical properties of sections on the current market are diverse and come under the liability of their manufacturers. This is why you should always ask the plaster manufacturer about the compatibility of their product with the material of the section to be used. In order to avoid any problem with corrosion, we advise the use of coated aluminium, PVC or AISI 304 stainless steel sections in extreme damp conditions (houses in wooded areas, bathrooms, etc.) or where drying the plaster takes a long time (poor ventilation of the premises or during winter and autumn).

NB : - To avoid sporadic rust, do not use galvanised tools or accessories with stainless steel sections.
- Always store the sections in a dry, sheltered place.

TECHNICAL ASSISTANCE: Samples of our sections, technical files or fitting instructions are available on request and free of charge from your distributor, who can also, if necessary, put you in touch with our technical sales representatives.

NB: Please ensure that you refer to current documentation which cancels and replaces documents on sections for plasters produced previously (see date on the reverse).
